

Marine Life Blanket CAL

Designs by Alex Mikkelborg, Two Hearts Crochet

Yarn Yardage Requirements

Below is the yardage requirements for this project. **I recommend using a G/4.00mm hook and Stylecraft Special DK yarn with the Corner-to-Corner stitch.** However, I have listed other yarn options for you as well. This blanket requires 15 different colors; if you have some of these colors in your stash, you may not need to buy more! There are two background colors listed in the chart below; if you opt to use different colors for your background, you'll still need a little bit (less than 1 skein) of Duck Egg.

I am planning to work several "border" panels to go between my squares; these panels will be made using a special stitch using my chosen border color, Petrol. If you choose to do the same, you'll need some additional skeins of yarn in that color (amount still TBD). Specific instructions for these panels and video tutorials on this stitch will be provided!

IMPORTANT NOTE: The yarn amounts listed below are ESTIMATES. The # of skeins is rounded up to the nearest skein; many of these colors use less than one skein (but you can't buy a partial skein, so I rounded up!), so if you prefer to look for more exact yardages, check the column that lists the # of yards (or meters) required. Again, these numbers are **ESTIMATES** derived from using a G/4.00mm hook, DK weight yarn, and the C2C stitch.
